Detailed description: The map displays the regions of Abruzzo, Lazio, and Campania with a focus on the locations of hydroelectric power plants. Each plant is marked with a colored square containing a checkmark: green for CHIUSI (closed) and pink for APERTI (open). The map shows numerous rivers and lakes, with the power plant locations indicated by these symbols. The regions are separated by black lines, and the names of many towns and geographical features are labeled throughout the map.
